

Air 1 serves my family by providing a listening environment that is appropriate for all ages. If Air 1 were not on the air we would be forced to listen to strictly CD's because there are too many inappropriate topics discussed and lyrics to music on the air waves. It is in the public's best interest for the FCC to provide morally uplifting listening choices. This is why it is so important that Air 1 not be taken over by and LPFM.  
Sincerely, Linda Pimental
